Overview

A SPACIOUS HOME WITH ENDLESS POTENTIAL IN A RURAL SETTING! Bring your imagination to this character-filled fixer-upper sited on a picturesque 2.48 acres boasting easy access to major routes that take you to schools, shopping and dining. With its classic New England architecture, this property is being sold as-is and is ready for the right visionary. A large porch with partial shade from the tall maple tree, provides room to bbq and enjoy the seasonal views. Enter the foyer to find the dining room, also perfect for a den or playroom. Make your way to the family room with a wood-stove. An attached solarium for year round plantings or starting veggies can be put to good use. A large eat-in kitchen features a handy breakfast bar, butcher block island and built in storage bench. The kitchen will undoubtedly be the center of the home for the holidays and social gatherings. Two separate staircases lead to a second floor where the primary enjoys a generous walk-in closet and two additional bedrooms and multi-purpose rooms will suit your lifestyle as future office or maker space. Want more? The adjacent extension with bathroom contains expansive untapped space for whatever you can dream up. Ideal for homesteading, a future farm with fertile soil to cultivate and plant. An active game trail follows the eastern boundary of the property. IF YOUVE DREAMED OF A HOME IN THE COUNTRY, THIS IS FOR YOU!
